

High Temp - Performance

A 90 minutes discussion of factors one should take into considerations while deciding the best course of your responsibilities as the Pilot In Command.... during periods of high temperatures and elevations above sea level.

Directions: Flying: Taxi to west side of airport, park just south of the sun shade open hangars... then walk 300 feet to north end of Q-Hut.

Driving: Park along west fence of the Q-Hut building... then walk 100 feet to north entrance of the Q-Hut building

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
